PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Artificial Intelligence with practical experience in full-stack web development, database management, and system workflows. Proficient in Python, SQL, and Django, with a strong focus on building scalable applications. Adept at debugging, problem-solving, and collaborating in team environments to deliver high-quality software solutions.

EDUCATION

Bachelor of Computer Science (Specialization: Artificial Intelligence)

Sathyabama Institute of Science and Technology

Expected Graduation: May 2026

CGPA: 6.71/10.00

Higher Secondary Education

Infant Jesus Matric Hr Sec School, Devakottai

Grade: 57.50

(May 2023)

Secondary Education

Infant Jesus Matric Hr Sec School, Devakottai

Grade: 100/100

(May 2021)

TECHNICAL SKILLS

- Programming Languages: Python
 - Web Technologies: HTML5, CSS3, JavaScript
 - Frameworks: Django
 - Database / Tools: SQL
 - Version Control: Git, GitHub
-

CORE SKILLS

- Problem Solving / Analytical Thinking
 - Debugging / Troubleshooting
 - Database Management / Query Optimization
 - Web Application Development
 - Team Collaboration / Communication
-

INTERNSHIP EXPERIENCE

GB Tech Corp — Full Stack Web Development Intern

Chennai

November 2025 – December 2025

- Built an e-commerce web app with product listing, cart, and checkout using Django and SQL.
 - Implemented dynamic cart with real-time updates and total calculation.
 - Designed relational schemas for products, cart, and orders; optimized queries for accuracy.
 - Performed testing and debugging to ensure cross-browser functionality.
-

PROJECTS

Campus Monitoring Management System

- Centralized campus services (attendance, grievance, hostel management) into one platform.
 - Enabled smart attendance with image and location validation, reducing proxy attendance.
 - Developed real-time faculty availability tracking and student engagement modules.
 - Digitized workflows, improving administrative efficiency and transparency.
-

CERTIFICATIONS

- Python Full Stack Development — QSpiders, Chromeper (On-going)
- Generative AI for Beginners — Simplilearn (May 2026)
