PROFESSIONAL SUMMARY

Python Full Stack Developer with hands-on experience in building scalable web applications and RESTful APIs using Python. Proficient in backend development with Flask and FastAPI, SQL-based database design, and API integration. Strong understanding of object-oriented programming, clean code practices, and Git-based version control. Adept at collaborating in team environments and delivering reliable, well-documented solutions aligned with business requirements.

EDUCATION

BACHELOR OF COMPUTER SCIENCE (SPECIALIZATION IN ARTIFICIAL INTELLIGENCE)

Sathyabama Institute of Science and Technology

CGPA: 6.71 / 10.00 | Expected: May 2026

INFANT JESUS MATRIC HR SEC SCHOOL, DEVAKOTTAI

Higher Secondary (HSC) | 57.50 / 100.00 | May 2023

INFANT JESUS MATRIC HR SEC SCHOOL, DEVAKOTTAI

Secondary School (SSLC) | 100.00 / 100.00 | May 2021

TECHNICAL SKILLS

- Python Programming (OOP, Scripting, Automation)
- Backend Frameworks: Flask, FastAPI (Learning)
- REST API Development & JSON Handling
- SQL & Relational Database Management
- Git Version Control
- Basic ETL & Data Processing

CORE SKILLS

- Object-Oriented Design Principles
- Problem-Solving & Analytical Thinking
- Code Quality, Debugging & Documentation
- Team Collaboration & Agile Mindset
- Effective Technical Communication

CERTIFICATION

PYTHON FULL STACK DEVELOPMENT

Q Spider's, Chromepet | Ongoing

INTERNSHIP EXPERIENCE

GB TECH CORP

Chennai | Full Stack Web Development Intern | November 2025

- Developed real-time data pipelines using WebSocket APIs (Binance) with CoinGecko fallback for high availability and low-latency updates.
- Designed REST-based data flows and JSON processing logic for live cryptocurrency analytics.
- Built interactive dashboards displaying price volatility, risk indicators, and market metrics using JavaScript.
- Implemented automation features for anomaly detection and generated downloadable PDF reports.
- Optimized application performance through efficient event handling and debounced search logic.
